

OVERMOLDED SHOE

BECAUSE WORK AIN'T PLAY.

PRODUCT ENHANCEMENT

DURABILITY AND STRENGTH START AT THE BOTTOM

The new overmolding process tightly bonds the polymer tread and aluminum of the shoe, increasing performance and resistance of the bottom tread against wear, tear, and dragging. Like every other thing we make, this shoe is truly Built to be Above.

CURRENT SHOES
4 LOCKING POINTS

NEW ENHANCED SHOES
10 BONDING POINTS

STRONGER BOND
10 BONDING POINTS CREATE A MORE DURABLE CONNECTION, EXTENDING THE LIFE OF THE LADDER.
